These solutions are supported by the technical expertise of GLORY Group of Japan, the pioneer in development and manufacture of money handling machines across the financial, retail, vending machine, amusement and gaming industries for nearly 100 years.

Across the world, Glory Global Solutions is trusted by thousands of organizations to ensure their cash is managed securely and efficiently while delivering the ultimate in productivity. 2,500 professionals, including over 1,300 service and support staff and 350 business partners cover over 128 countries delivering these solutions – wherever money moves.

Mach[®] 9 Technical Information

Glory's Mach[®] 9 is a high volume commercial grade coin sorter that is fast, accurate and versatile.

Optimal speed and accuracy

- The patented Figure 8 technology provides optimal and accurate sorting and counting at up to 4,500 coins per minute.

Versatile options to meet your needs

- Mach 9 was designed for high volume sorting and counting into coin bags.
- The optional WAVE™ Coin Authentication Technology tests coins five ways to determine authenticity, and rejects foreign coins and tokens that are not set up for counting. 
- For streamlined communications and consolidated reporting, the Mach 9 offers Management Information Control System™ (MICS) as standard. This will give you three levels of memory and the ability to manually enter values for other media, like checks and credit cards, into your totals.
- For connectivity, choose from RS232 or USB ports to connect to other counting equipment and cash settlement systems. Security doors can be added to the machine stand, if loss prevention is a priority.
- The Mach 9 workstation design offers a convenient work surface, an easy access keyboard and a large LCD display for operator convenience. An optional fully-integrated printer can also be specified. Bag changes are easy with the Mach 9 patented quick release bagging attachments.
